

# Brass in Blue

*"...once heard, never forgotten..."*

## *What are Concert Sponsors saying about Brass in Blue?*

"Brass in Blue is a tremendous group of musicians as well as ambassadors. The concert is inspirational and extremely well performed. In addition, the time the audience got to spend visiting with the band members after the performance added a personal touch that they will not soon forget."

Lori Lott, President  
Perry Chief  
Perry, IA

"This group of dedicated musicians played before a packed house in Creston and received three standing ovations. I received many great compliments on the band after the show and some wonderful letters of appreciation. The Heartland of America band is a wonderful group to have if you are looking for a band that plays a wide variety of music with just the right amount of patriotic harmony."

Rich Paulsen, Publisher  
Creston & Osceola Newspaper  
Creston/Osceola, IA

"Their music and showmanship was off the charts and to be able to spend time with the entire band before and after the concert was a very humbling experience. I cannot wait to be given the opportunity to host the Brass in Blue again."

Trevor Slette, General Manager  
Citizen Publishing  
Windom, MN
